
Appendix D State Characteristics Data Element Definitions and Notes

(Source: WINPLUS User's Guide Version 2.0, FY 1998)

Note: The items below are answered by the state library agency.

#	Data Element Name	Data Element Definitions and Notes
01	State (Automatic Display)	<p>Definition: This is the standard two-letter state abbreviation automatically assigned by WinPLUS.</p> <p>Note: See Appendix I — State Codes.</p>
02	FSCS Submission Year (Automatic Display)	<p>Definition: This is the year in which these FSCS data are submitted to NCES and is automatically assigned by WinPLUS.</p>
03	Reporting Period Starting Date	<p>Definition: This is the earliest date (month and year) for a 12-month period that applies to the state's data being submitted to NCES.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year. If data are collected for different local reporting periods, provide the earliest starting date.</p>
04	Reporting Period Ending Date	<p>Definition: This is the latest date (month and year) for a 12-month period that applies to the state's data being submitted to NCES.</p> <p>Note: Reporting period means data for the fiscal year that ended in the previous calendar year. If data are collected for different local reporting periods, provide the latest ending date.</p>
05	Official State Total Population Estimate	<p>Definition: This is the most recent official total population figure for your state that matches the local population figures that you are submitting to NCES. The State Data Coordinator should obtain this figure annually from the State Data Center or other official state sources.</p>
5A	Total Unduplicated Population of Legal Service Areas	<p>Definition: This is the total unduplicated population of those areas in your state that receive library services. The population of unserved areas is not included in this figure.</p>

Note: A state's actual total population of legal service areas may be different from the total population of legal service areas as calculated by WinPLUS. This happens in states where there are overlaps in population of legal service areas served by individual libraries, resulting in the same population being counted twice in the WinPLUS calculation. For states that have no overlapping jurisdictions, this number will be identical to your state's total population of legal service areas as calculated by WinPLUS. For states that do have overlaps in population of legal service areas served by individual libraries, this number must be calculated separately.

Use your state's most recent official state population figures for jurisdictions in your state as the basis for calculating the total unduplicated population of legal service areas.

Note: Some of the data element names that appear on the WinPLUS data entry screens are abbreviated.

Appendix E Administrative Entity Data Element Definitions

ADMINISTRATIVE ENTITY (not a WinPLUS Data Element)*

Definition: This is the agency that is legally established under local or state law to provide public library service to the population of a local jurisdiction. The Administrative Entity may have a single outlet, or it may have more than one outlet.

Note: Do not report Administrative Entities Only, for purposes of this survey.

#	Data Element Name	Data Element Definitions and Notes
01	LIB ID (Optional)	Definition: This is the state-assigned identification code for the administrative entity.
1A	FSCS ID (Automatic Display)	Definition: This is the identification code assigned by NCES to the administrative entity.
02	Name*	Definition: This is the legal name of the administrative entity. Note: Provide the name of the public library.
03	Street Address	Definition: This is the complete street address of the administrative entity. Note: Do not report a post office box or general delivery.
04	City	Definition: This is the city or town in which the administrative entity is located.
4A	County of the Entity	Definition: This is the county in which the administrative entity is located.
05	Zip1	Definition: This is the standard five-digit postal zip code for the street address of the administrative entity.
06	Zip2	Definition: This is the four-digit postal zip code extension for the street address of the administrative entity.

07 Phone

Definition: This is the telephone number of the administrative entity, including area code.

Note: Report telephone number without spacing or punctuation.

07A Interlibrary Relationship Code*

Select one of the following:

HQ Headquarters of a System, Federation, or Cooperative Service.
(Include any system, federation, or cooperative service member acting in this role.)

ME Member of a System, Federation, or Cooperative Service, but not the headquarters.

NO Not a Member of a System, Federation, or Cooperative Service.

HQ Headquarters of a System, Federation, or Cooperative Service

Definition: The library or entity that provides the physical space and staff who manage, coordinate, or administer the programs of the system, federation, or cooperative service. Note: Agencies that serve other libraries rather than the public should not be reported to FSCS.

ME Member of a System, Federation, or Cooperative Service

Definition: An autonomous library joined by formal or informal agreement(s) with other autonomous libraries in the same state to perform various services cooperatively, such as resource sharing, communications, etc. This does include libraries that are part of national, multi-state or statewide library systems, federations, or cooperative services. (Do not respond 'Yes' if you belong to OCLC). This does not include multiple-outlet administrative entities (e.g., libraries with branches that have the word "system" in their legal name) if the entity does not have an agreement with another autonomous library.

7B Legal Basis Code*

Definition: The legal basis is the type of local government structure within which the entity functions. It reflects the state or local law which authorizes the library.

Select one of the following:

- CI Municipal Government (city, town or village)
- CO County/Parish
- CC City/County
- MJ Multi-jurisdictional
- NL Native American Tribal Government
- NP Non-profit Association or Agency
- SC School District
- SD Special Library District (authority, board, commission)
- OT Other

- CI Municipal Government (city, town or village)

Definition: A municipal government is an organized local government authorized in a state's constitution and statutes and established to provide general government for a specific concentration of population in a defined area.

- CO County/Parish

Definition: An organized local government authorized in a state's constitution and statutes and established to provide general government.

- CC City/County

Definition: A multi-jurisdictional entity that is operated jointly by a county and a city.

- MJ Multi-jurisdictional

Definition: An entity operated jointly by two or more units of local government under an intergovernmental agreement which creates a jointly appointed board or similar means of joint governance; to be distinguished from a library which contracts to serve other jurisdictions and from special library districts.

Note: Please put city/county combinations under 'CC', rather than under Multi-jurisdictional.

- NL Native American Tribal Government
-

Definition: An organized local government authorized and established to provide general government to residents of a Native American reservation.

Note: Include native Alaskan villages in this category.

NP Non-profit Association or Agency

Definition: An entity privately controlled but meeting the statutory definition of a public library in a given state; includes association libraries.

SC School District

Definition: An organized local entity providing public elementary, secondary, and/or higher education which, under state law, has sufficient administrative and fiscal autonomy to qualify as a separate government. Excludes "dependent public school systems" of county, municipal, township, or state governments.

SD Special Library District (authority, board, commission)

Definition: This is a district, authority, board or commission authorized by state law to provide library services.

OT Other

7C Administrative Structure Code*

Definition: This code identifies an autonomous library entity that has its own governance and funding.

Select one of the following:

MA Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate

MO Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Not Separate

SO Administrative Entity with a Single Direct Service Outlet

MA Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Separate

Definition: An Administrative Entity that serves the public directly with two or more service outlets, including some combination of central librar(ies), branch(es), bookmobile(s), and/or books-by-mail only. The administrative offices are separate from the direct service outlets and do not provide direct library services.

MO Administrative Entity with Multiple Direct Service Outlets where Administrative Offices are Not Separate

Definition: An Administrative Entity that serves the public directly with two or more service outlets, including some combination of a central librar(ies), branch(es), bookmobile(s), and/or books-by-mail only.

SO Administrative Entity with a Single Direct Service Outlet

Definition: An Administrative Entity that serves the public directly with one central library, books-by-mail only, or one bookmobile.

7D FSCS Public Library Definition

Answer <Y>es or <N>o to the following question:
Does this public library meet all the criteria of the FSCS public library definition?

A public library is an entity that is established under state enabling laws or regulations to serve a community, district, or region, and that provides at least the following:

1. An organized collection of printed or other library materials, or a combination thereof;
2. Paid staff;
3. An established schedule in which services of the staff are available to the public;
4. The facilities necessary to support such a collection, staff, and schedule; and
5. Is supported in whole or in part with public funds.

Note: If the library meets all of the requirements of this definition, respond with a yes. If the library does not meet one or more of the requirements, respond with a no.

7E Geographic Code**

Definition: Choose from among the following types of readily available Census geography, one code that either exactly or most nearly describes the geographic area for which the public library has been established to offer services and from which (or on behalf of which) the library derives income and any areas served under contract for which the library is the primary service provider.

CI1 — City (exactly)
CI2 — City (most nearly)
CO1 — County (exactly)
CO2 — County (most nearly)
MA1— Metropolitan Area (exactly)
MA2— Metropolitan Area (most nearly)
MC1— Multi-County (exactly)
MC2— Multi-County (most nearly)
SD1 — School District (exactly)
SD2 — School District (most nearly)
OTH— Other

Note: The Population of Legal Service Area (Data Element 08) should be reflected in the geographic code selected.

08 Population of the Legal Service Area

Definition: The number of people in the geographic area for which a public library has been established to offer services and from which (or on behalf of which) the library derives income, plus any areas served under contract for which the library is the primary service provider.

Note: The determination of this population figure shall be the responsibility of the state library agency. This population figure should be based on the most recent official state population figures for jurisdictions in your state available from the State Data Center. The State Data Coordinator should obtain these figures annually from the State Data Center or other official state sources.

09 Number of Central Libraries

Definition: This is one type of single outlet library (SO) or the library which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. Synonymous with main library.

Note: Not all administrative entities have a central library and some administrative entities have more than one central library.

10	Number of Branch Libraries	Definition: A branch library is an auxiliary unit of an Administrative Entity which has at least all of the following: 1) separate quarters; 2) an organized collection of library materials; 3) paid staff; and 4) regularly scheduled hours for being open to the public.
11	Number of Bookmobiles	Definition: A bookmobile is a traveling branch library. It consists of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) paid staff; and 3) regularly scheduled hours (bookmobile stops) for being open to the public. Note: Count the number of vehicles in use, not the number of stops the vehicle makes.
12	Number of Book-by-Mail Only	This automatic-display-only item was discontinued.

PAID STAFF (FULL-TIME EQUIVALENT)

Report figures as of the last day of the fiscal year. Include all positions funded in the library's budget whether those positions are filled or not. To ensure comparable data, 40 hours per week has been set as the measure of full-time employment (FTE).

13	ALA-MLS	Definition: Librarians with master's degrees from programs of library and information studies accredited by the American Library Association.
14	Total Librarians	Definition: Persons with the title of librarian who do paid work that usually requires professional training and skill in the theoretical or scientific aspects of library work, or both, as distinct from its mechanical or clerical aspect. This data element also includes ALA-MLS (Data Element #13).
15	All Other Paid Staff	Definition: This includes all other FTE employees paid from the reporting unit budget, including plant operations, security, and maintenance staff.
16	Total Paid Employees	Definition: This is the sum of total librarians (Data Element #14) and all other paid staff (Data Element #15).

OPERATING INCOME

Report income used for operating expenditures as defined below. Include federal, state, or other grants. DO NOT include income for major capital expenditures, contributions to endowments, income passed through to another agency (e.g., fines), or funds unspent in the previous fiscal year. (Funds transferred from one public library to another public library should be reported by only one of the public libraries. The State Data Coordinator shall determine which library will report these funds.)

17	Local Government Income	Definition: This includes all tax and non-tax receipts designated by the community, district, or region and available for expenditure by the public library. Do not include the value of any contributed or in-kind services or the value of any gifts and donations, fines, or fees.
18	State Government Income	Definition: These are all funds distributed to public libraries by State government for expenditure by the public libraries, except for federal money distributed by the State. This includes funds from such sources as penal fines, license fees, and mineral rights.
19	Federal Government Income	Definition: This includes all federal government funds distributed to public libraries for expenditure by the public libraries, including federal money distributed by the State.
20	Other Income	Definition: This is all income other than that reported by Local, State, and Federal (Data Elements #17, #18, and #19). Include, for example, monetary gifts and donations received in the current year, interest, library fines, and fees for library services. Do not include the value of any contributed or in-kind services or the value of any nonmonetary gifts and donations.
21	Total Income	Definition: This includes income from the Local government, the State government, the Federal government, and all other income (The sum of Data Elements #17 through #20).

OPERATING EXPENDITURES

Operating expenditures are the current and recurrent costs necessary to support the provision of library services. Significant costs, especially benefits and salaries, that are paid by other taxing agencies (government agencies with the authority to levy taxes) on behalf of the library may be included if the information is available to the reporting agency. Only such funds that are supported by expenditure documents (such as invoices, contracts, payroll records, etc.) at the point of disbursement should be included. Estimated costs are not reported.

22	Salaries & Wages Expenditures	Definition: This includes salaries and wages for all library staff (including plant operations, security, and maintenance staff) for the fiscal year. Include salaries and wages before deductions but exclude employee benefits.
23	Employee Benefits Expenditures	Definition: These are the benefits outside of salaries and wages paid and accruing to employees

	(including plant operations, security, and maintenance staff), regardless of whether the benefits or equivalent cash options are available to all employees. Include amounts for direct paid employee benefits including Social Security, retirement, medical insurance, life insurance, guaranteed disability income protection, unemployment compensation, workmen's compensation, tuition, and housing benefits.
24 Total Staff Expenditures	Definition: This includes salaries and wages (Data Element #22), and employee benefits (Data Element #23).
25 Collection Expenditures*	Definition: This includes all expenditures for materials purchased or leased for use by the public. It includes print materials, microforms, machine-readable materials, audiovisual materials, etc..
26 Other Operating Expenditures*	Definition: This includes all expenditures other than those for staff (Data Element #24) and collection (Data Element #25). Note: Include expenses such as binding, supplies, repair or replacement of existing furnishings and equipment, and costs incurred in the operation and maintenance of physical facilities.
27 Total Operating Expenditures*	Definition: This includes total expenditures on staff, total expenditures on collection, and other operating expenditures (Data Elements #24, #25, and #26). Note: Includes Operating Expenditures for Electric Access (Data Element #45) and Operating Expenditures for Library Materials in Electronic Format (Data Element #44).
28 Capital Outlay	Definition: These are funds for the acquisition of or additions to fixed assets such as building sites, new buildings and building additions, new equipment, initial book stock, furnishings for new or expanded buildings, and new vehicles. This excludes replacement and repair of existing furnishings and equipment, regular purchase of library materials, and investments for capital appreciation. Note: Local accounting practices shall determine whether a specific item is a capital expense or an operating expense regardless of the examples in the definition.

LIBRARY COLLECTION

Note: Report physical units for items 29X33 and 46. For smaller libraries when volume data are not available, title information may be substituted. Items which are packaged together as a unit (e.g., two compact discs or two video cassettes) and are generally checked out as a unit, should be counted as one physical unit.

29 Book/Serial Volumes

Definition: Books are non-periodical printed publications bound in hard or soft covers, or in loose-leaf format. Serials are publications issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals (magazines), newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies. Except for the current volume, count unbound serials as a volume when the library has at least half of the issues in a publisher's volume.

30 Audio

Definition: These are materials on which sounds (only) are stored (recorded) and that can be reproduced (played back) mechanically or electronically, or both. Included are records, audiocassettes, audio cartridges, audiodiscs, audioreels, talking books, and other sound recordings.

31 Film

No longer collected.

32 Video

Definition: These are materials on which pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or monitor.

33 Subscriptions

Definition: This refers to the arrangements by which, in return for a sum paid in advance, periodicals, newspapers, or other serials are provided for a specified number of issues. These are print and microfilm subscriptions only; not electronic or digital subscriptions.

Note: Count print subscriptions purchased from the library's budget and those donated to the library as gifts. Count titles, including duplicates, not individual issues. Include the total number of subscriptions for all outlets.

SERVICES

34 Unduplicated Hours

No longer collected

35 Public Service Hours per Year

Definition: This is the sum of annual public service hours for outlets.

Note: Include the hours open for public service for centrals (data element #9), branches (data element #10), bookmobiles (data element #11), and books-by-mail only. For each bookmobile, count only the hours during which the bookmobile is open to the public. For Administrative Entities that offer ONLY books-by-mail service, count the hours that the outlet is staffed for service. Minor variations in scheduled public service hours need not be included, however extensive hours closed to the public due to natural disasters or other events should be excluded even if the staff is scheduled to work.

36 Library Visits

Definition: This is the total number of persons entering the library for whatever purpose during the year.

Note: If an actual count of visits is unavailable, determine an annual estimate by counting visits during a typical week in October and multiplying the count by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

37 InBLibrary Use

No longer collected.

38 Reference Transactions

Definition: A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. It includes information and referral services. Information sources include printed and non-printed materials, machine-readable databases, catalogs and other holdings records, and, through communication or referral, other libraries and institutions and people inside and outside the library. The request may come in person, by phone, by fax, mail, or by electronic-mail from an adult, a young adult, or a child.

Do not count directional transactions or questions of rules or policies. Examples of directional transactions are “Where are the children’s books?” and “I’m looking for a book with the call number 811.2G.” An example of a question of rules or policies is “Are you open until 9:00 tonight?”

Note: If an annual count of reference transactions is unavailable, determine an annual estimate by counting reference transactions during a typical week in October and multiply the count by 52. A “typical week” is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours. Include seven consecutive calendar days, from Sunday through Saturday (or whenever the library is usually open).

39 Total Circulation

Definition: The total annual circulation of all library materials of all types, including renewals.

Note: Count all materials in all formats that are charged out for use outside the library. Interlibrary loan transactions included are only items borrowed for users. Do not include items checked out to another library.

INTER-LIBRARY LOANS

40 Provided To

Definition: These are library materials, or copies of the materials, provided by one library to another upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

41 Received From

Definition: These are library materials, or copies of the materials, received by one library from another library upon request. The libraries involved in interlibrary loans are not under the same library administration. These data are reported as annual figures.

CHILDREN’S SERVICES

42 Circulation of Children’s Materials

Definition: The total annual circulation of all children’s materials in all formats to all users. It includes renewals.

43 Children=s Program Attendance

Definition: The count of the audience at all programs for which the primary audience is children. Includes adults who attend programs intended primarily for children.

Note: Output Measures for Public Library Service to Children; A Manual of Standardized Procedures (ALA, 1992) defines children as persons age 14 and under.

ELECTRONIC TECHNOLOGY

44 Operating Expenditures
For Library Materials in
Electronic Format*
(also include in #25 or #26)

Definition: Report operating expenditures for materials considered part of the collection, whether purchased or leased, such as CD-ROMs, magnetic tapes, and magnetic discs, that are designed to be processed by a computer or similar machine. Examples are U.S. Census data tapes, locally-mounted databases, serials, and reference tools. Include operating expenditures for equipment when the cost is inseparably bundled into the price of the information service product. Exclude operating expenditures for library system software and microcomputer software used only by the library staff.

Note: These expenditures should also be included in Collection Expenditures (Data Element #25) or Other Operating Expenditures (Data Element #26) on the Administrative Entity screen.

45 Operating Expenditures
for Electronic Access*

(also include in #25 or #26)

Definition: Report all operating expenditures from the library budget associated with access to electronic materials and services. Include computer hardware and software used to support library operations, whether purchased or leased, mainframe and microcomputer. Include expenditures for maintenance. Include expenditures for equipment used to run information service products when that expenditure can be separated from the price of the product. Report expenditures for services provided by national, regional, and local bibliographic utilities, networks, consortia and commercial services. Report all fees and usage costs associated with such services as OCLC FirstSearch or electronic document delivery.

Note: Report only operating expenditures. These expenditures should also be included in Collection

	Expenditures (Data Element #25) or Other Operating Expenditures (Data Element #26) on the administrative entity screen. Do NOT report capital expenditures for items in this category.
46 Number of Library Materials in Electronic Format	Report the number of physical units such as CD-ROMS, magnetic tapes and magnetic disks that are designed to be processed by a computer. Examples are U.S. Census data tapes, locally-mounted databases, reference tools, and serials on CD-ROM, tape, or floppy disk. Exclude bibliographic records used to manage the collection, library system software, and microcomputer software used only by the library staff.
47 Access to Electronic Services	<p>Answer <Y>es or <N>o to the following question: Does your library provide access to electronic services (e.g., bibliographic and full-text databases, multi-media products)?</p> <p>These are electronic services provided due to subscription, lease, license, consortial membership or agreement. Include full-text serial subscriptions and electronic databases received by the library or an organization associated with the library.</p>
48 Access to Internet Does	<p>Answer <Y>es or <N>o to the following question: the public library have access to the Internet?</p> <p>The Internet is the collection of networks that connects government, university, and commercial agencies (e.g., NSFNET, WestNet, etc.) and is unified by the use of a single protocol suite, TCP/IP.</p> <p>Report the library as providing Internet access only if one or more of the following services are accessible: telnet, gopher, file transfer protocol, or community network. Do not report a library that has access to electronic mail only.</p> <p>If the public library has access to the Internet as defined in the three preceding sentences, respond <Y>es to this data element and answer Internet Use Code (Data Element #49). If the library does not have access to the Internet, respond <N>o, and leave Data Element #49 blank.</p>
49 Internet Use Code	If the library has Internet access, is Internet used by (select one):

	ST	library staff only
	PI	patrons through a staff intermediary only
	PE	patrons either directly or through a staff intermediary
	UK	unknown
50	Number of Internet Terminals Used by Staff Only**	
	Definition: Number of computer terminals (PC, 'dumb terminal', etc.) used by staff only in the library that are used to connect to the Internet (text only, graphical, etc.).	
51	Number of Internet Terminals Used by General Public**	
	Definition: Number of computer terminals (PC, 'dumb terminal', etc.) used by general public in the library that are used to connect to the Internet (text only, graphical, etc.).	

* Definition or related note has been revised.

**New data element.

Note: Some of the data element names that appear on the WinPLUS data entry screens are abbreviated.

Appendix F Outlet Data Element Definitions

#	Data Element Name	Data Element Definitions and Notes
01	LIB ID (OPTIONAL)	Definition: This is the state-assigned identification code for the Outlet.
1A	FSCS ID (Automatic Display)	Definition: This is the identification code assigned by NCES. Outlets are assigned the same FSCS ID as the Administrative Entity to which they belong, with a unique three-digit suffix added to distinguish each outlet.
02	Name	Definition: This is the name of the Outlet.
03	Street Address	<p>Definition: This is the complete street address of the Outlet.</p> <p>Note: Do not report a post office box or general delivery. For a bookmobile that operates from an administrative entity, branch, or central library, report the address of the administrative entity, branch or central library from which it operates. For a bookmobile that is itself the administrative entity, report the address where the bookmobile is parked at night.</p>
04	City	Definition: This is the city or town in which the Outlet is located.
05	County of the Outlet	Definition: This is the county in which the Outlet is located.
06	Zip1	Definition: This is the standard five-digit postal zip code for the street address of the Outlet.
07	Zip2	Definition: This is the four-digit postal zip code extension for the street address of the Outlet.
08	Phone	<p>Definition: This is the telephone number of the Outlet, including area code.</p> <p>Note: Report telephone number without spacing or punctuation.</p>

09 Outlet Type Code

Definition: An outlet is a unit of an Administrative Entity that provides direct public library service.

Select one of the following:

BM Books-by-Mail Only
BR Branch Library
BS Bookmobile(s)
CE Central Library

BM Books-by-Mail Only

Definition: A direct mail order service which provides books and other library materials. Books-by-mail typically serves rural residents, the disabled, the homebound, and others without access to another type of public library outlet. Requests for materials are usually received by mail and by telephone only. Only Books-by-Mail services that are housed separately from any other type of direct public service outlet (that is, central library, branches, or bookmobiles) should be coded here.

BR Branch Library

Definition: A branch library is an auxiliary unit of an Administrative Entity which has at least all of the following: 1) separate quarters; 2) an organized collection of library materials; 3) paid staff; and 4) regularly scheduled hours for being open to the public.

BS Bookmobile(s)

Definition: A bookmobile is a traveling branch library. It consists of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) a paid staff; and 3) regular scheduled hours (bookmobile stops) for being open to the public.

Note: A separate outlet record may be created for each bookmobile. You may wish to create separate outlet records for individual bookmobiles if (1) they have different addresses and/or (2) they have different Metropolitan Status Codes. Alternatively, a bookmobile outlet record may include more than one bookmobile.

10 Metropolitan Status Code

CE Central Library

Definition: This is one type of single outlet library (SO) or the library which is the operational center of a multiple-outlet library (MO or MA). Usually all processing is centralized here and the principal collections are housed here. Synonymous with main library.

Note: Not all Administrative Entities have a central library and some Administrative Entities have more than one central library.

Select one of the following. Bookmobiles should report the code which best describes their primary service area.

- CC Within the city limits of the central city of a Metropolitan Area.
- NC Metropolitan Area, but not within central city limits.
- NO Not in a Metropolitan Area.
- UK Unknown

Note: Contact the state data center for specific information about Metropolitan Areas in your state.

CC Central City

Definition: The largest central city and, in some cases, up to two additional central cities are included in the title of the Metropolitan Area; there also are central cities that are not included in a Metropolitan Area title. A Metropolitan Area central city does not include any part of that city that extends outside the Metropolitan Area boundary.

- NC Metropolitan Area, but not within central city limits.

Definition: A large population nucleus, together with adjacent communities that have a high degree of economic and social integration with that nucleus. Some Metropolitan Areas are defined around two or more nuclei. Each Metropolitan Area must contain a place with a minimum population of 50,000 or a Census Bureau-defined urbanized area and a total Metropolitan Area population of at least 100,000 (75,000 in New England). A Metropolitan Area comprises one or more central counties. (Independent cities are considered county equivalents.) A Metropolitan Area may also include one or more outlying counties that have close economic

and social relationships with the central county. An outlying county must have a specified level of commuting to the central counties and also must meet certain standards regarding metropolitan character, such as population density, urban population, and population growth. In New England, Metropolitan Areas are composed of cities and towns rather than whole counties.

11 Population of the Legal Service
Area by Type of Outlet***

No longer collected

12 Number of Bookmobiles in
the Bookmobile Outlet Record

Definition: The number of bookmobiles in the book mobile outlet record.

Note: A bookmobile outlet record may include one or more bookmobiles. Complete this data element only if the outlet record is of the type BS - Bookmobile(s) (see Outlet Data Element #9). A bookmobile is a traveling branch library. It consists of at least all of the following: 1) a truck or van that carries an organized collection of library materials; 2) a paid staff; and 3) regular scheduled hours (bookmobile stops) for being open to the public. Count vehicles in use, not the number of stops the vehicle makes.

13 Web Address

Definition: This is the Web Address of the outlet.
http://_____.

***Data element was deleted.

Note: Some of the data element names that appear on the WinPLUS data entry screens are abbreviated.
